

News on Kansai Airport from SPARC LOC (10 September 2018)

No particular news for Kansai Airport itself. However, access from/to Kansai Airport to/from Kyoto City was improved.

For Peach Aviation (APJ / MM), whose base is Kansai Airport, 90% of both domestic and international flights have been recovered.

For access between Kansai Airport and Kyoto City,

- Airport Limousine Bus has returned to regular service:

<https://www.okkbus.co.jp/en/timetable/KY/#from>

1h 20 min from Kansai Airport to Kyoto Station

Some buses go further to Kyoto downtown.

- JR Haruka has started to connect Kyoto Station to Hineno Station

Shuttle bus service from Kansai Airport to Rinku-Town Station is available every 4-8 min.

From Rinku-Town Station to Kyoto Station,

Rinku-Town –[JR Kanku-Kaisoku (6min)]-> Hineno -> [JR Haruka (1h15min)] -> Kyoto

So even without railway of the connection bridge, it is possible to reach Kyoto City if you arrive at Kansai Airport.
