

News on Kansai Airport from SPARC LOC (11 September 2018)

The airlines that partly resumed at Kansai Airport are Peach Aviation, Spring Airline, ANA, and JAL. 72 passenger flights were operated on 10 September, which is less than 20% of 460 flights on average for this season, though. Drainage work of flooded A runway and underground facility of Terminal 1 was almost finished. So, it is expected that a south part of Terminal 1 starts provisionally its operation on 14 September.
