

News on Kansai Airport from SPARC LOC (12 September 2018)

According to the Ministry of Land, Infrastructure, Transport and Tourism announcement on 11th of September, the removal of the damaged bridge girder of the connecting bridge of the Kansai Airport will start on the 12th and will be completed on 14th. If the removal proceeds as planned, restoring the railway part can be started. It is said that the railroads whose completion was originally scheduled in early October are now expected to resume earlier, hopefully within this month.
